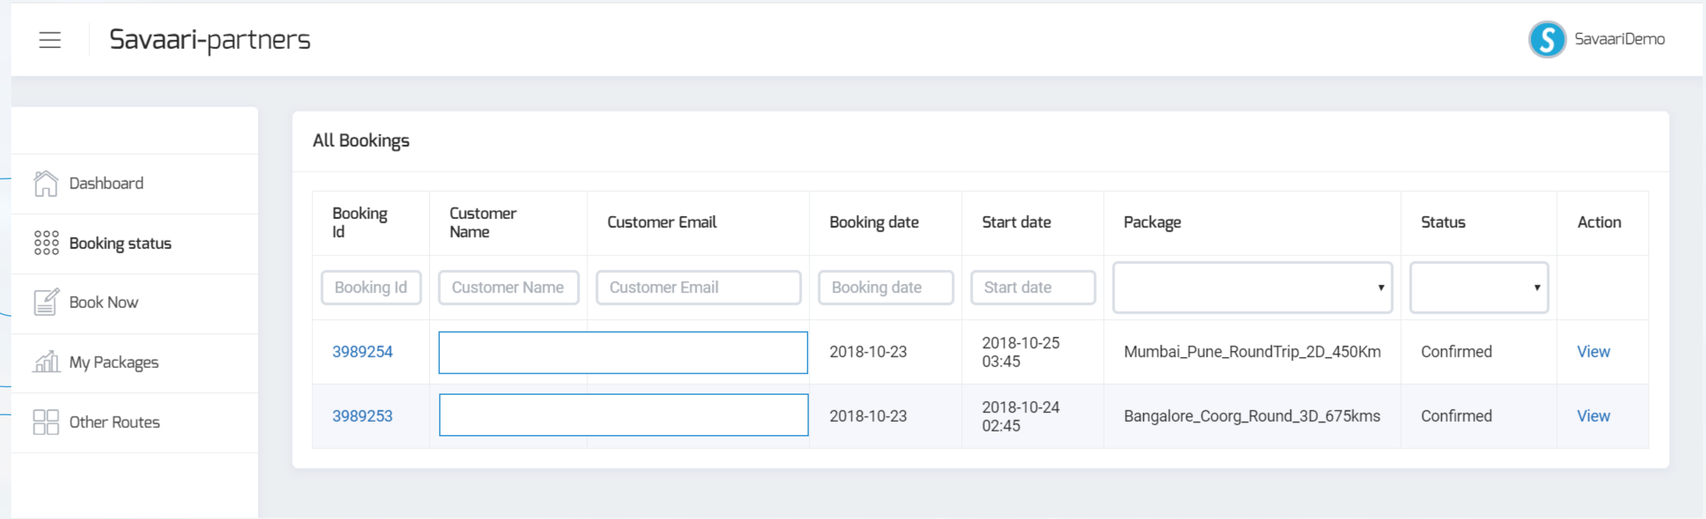
Corporate Holidays Portal

-Shows the summary of bookings viz. Past, Ongoing, Cancelled, Completed
-On click pop-up shows detail

-Create booking functionality from a drop down list of pre-populated holiday packages
-Capture customer details

-Gives the list of holiday packages under the account
-Functionality to add new packages

-Shows the master list of packages where Savaari operates currently.



- Main intent of providing a portal to our holiday partners is to reduce overheads and minimise errors, which might otherwise arise in offline handing of bookings.
- All the functionalities with respect to Booking creation, Package addition, Booking status check, Driver Details, Trip start and Completion check can be handled through the portal.
- Demo will be provided along with hand-holding of executives while on-boarding of Savaari.

Operational Capability

-Savaari has a **100+** member call center team operating out of its office in Moradabad, UP.
-24X7 customer support center with executives working in multiple shifts.
-Capability to handle **3-6X** enquiries during peak season – long weekends, holiday season etc.

-Regional offices in **5 key metro cities** for vendor management.
-They act as hubs for management of driver partners and vendors in the surrounding source cities.
-Quick TAT for on-trip and pre-trip driver related issues through regional offices.

-Savaari has an efficient and scalable technology platform which provides seamless end to end execution of booking.
-API based scalable infrastructure to handle dynamic load of bookings.
-Driver app and alarm based interface module for on-trip security.
